

IN TUNE

Spiritual Aspects of Worship

The Life of David

- Do you want to be a man or woman after God's own heart? We will journey through the life of David and touch on various events in his life that is still applicable to us today.

Heart of Worship

- Discover the true meaning of worship, the origin of worship and some expressions of worship.

Hebrew words of Praise

- The word "praise" in the Bible is disguised with a much richer meaning in the original Hebrew language. We discover this richness that helps us understand worship in a better way.

Sacrifice of praise

- The Old Testament sacrificial system is done away with through Jesus Christ. There is a sacrifice that is still applicable on us today - the sacrifice of praise!

Temples in the Old & New Testament

- We look at how the tabernacles in the days of Moses and David are shadows and types for us to draw from as Spirit filled believers.

The Anointed Team

- Do you want to experience God's anointing on your team? Ps 133 says that where there is unity, God commands His blessing!

Worship Leading

- Do you find yourself in this hot seat? The role of the worship leader is discussed and the temperature is turned down.

Worship as a lifestyle

- To worship God in spirit and in truth gets it full meaning in our everyday lives - the place of worship fades...

Practical Aspects of Worship

Sound Engineering & Multi Media

- Take the sting out of sound engineering and mix the gain, tones, watts and visuals to a pleasant surprise on the eye and ear.

Music Appreciation

- Appreciate the sounds that dresses a piece of music

Copyright

- Let's talk about what's right and legal in using Christian music.

Basic Musical Training

Music Theory

- A feast bringing you the basics on scales, chord structures and other theoretical and musical aspects

The Art of the Chart

- Get to know the chord chart and let it work for you

Arranging

- Don't let the business of life creep into your music arranging - less is more...

Vocal Training

- Get your breath back and pitch those notes!

Guitar Training

- Untangle your fingers and let them do the talking!

Keyboard/Piano Training

- Flowing structures, chord voicings, layer those sounds!
